ELECTRICAL SYSTEM
BULLETIN NO. 461
JUNE 15, 1961

AUTOLITE - EVINRUDE CROSS REFERENCE 12 VOLT DC GENERATOR PARTS

This Evinrude-Autolite cross reference will assist you when ordering service parts for generators installed on the following models:

35 and 40 HP -- 25930-25936-25532 and 35514 thru 35525

50 HP -- 50514 thru 50519

75 HP -- 50522 thru 50525

To use the cross reference, simply locate the desired part by number from the illustration and obtain the Autolite model number stamped on the generator frame. Locate the part and the correct model in the cross reference. Reading across in line, you will find the Evinrude generator assembly number, the Autolite and Evinrude detail part numbers, and the Evinrude price.

The Autolite model number and Evinrude assembly number are for generators only, not complete generator kits.

Prices listed are for current (1961) fiscal year only, and are subject to change without notice.

Order all parts from your parts distributor by Evinrude part number only.
